We work within the Croydon area serving the community by recycling good quality donated furniture and household goods. The items are supplied as a 'starter home pack' to referred clients with mental health problems, who are moving into unfurnished accommodation from places such as hospital or bed and breakfast.

We aim to take the stress out of this transition back into the community, maintaining the clients' level of rehabilitation achieved and giving them the quality time to concentrate on leading a fuller life.

EXAMPLES OF ITEMS NEEDED:

Sofas and armchairs (must have fire labels attached),
Coffee tables, Dining tables and chairs,
